Web Development Class 3 Homework

1. Design a form to sign people up for a service that will steal all their information (as a joke)

   It should ask for as much personal information as possible

   Please name the file `dl_homework3.html` (where dl are your initials, David Lu for me)

2. Find two examples of layouts from major websites: A bad one, and a good one. Take screenshots of the websites, and submit them to @homeworkbot.

Assigned on July 10, 2016. Due July 17, 2016.
