Web Development Class 13 Homework

1. You run a burger store, the prices are as follows:
   a. Hamburger: $1.00
   b. Cheeseburger: $1.10
   c. Fries: $1.00
   d. Soft Drink: $0.80
   e. Milkshake: $1.20

Write a JavaScript program and HTML form to ask a person how many of each item they ordered, and output their total cost. Remember to use input type **number**.

Submit both the JS and HTML files to @homeworkbot

Assigned on August 14, 2016, due on August 21, 2016
